## Authored books

I have authored three books to help small non-profit organizations. They are:

### **Churches Step Up to the Next Level -- A Guide for Local Churches to Improve Their Accounting Operations and Internal Controls**

Written specifically for local churches, this primer will help you step up to the basic internal controls and procedures every church should have. Key topics:

- \* Why bother putting good procedures in place?
- \* Fundamental financial procedures.
- \* How internal controls protect your staff.
- \* Basic internal controls that can be easily developed in the context of a local church.
- \* Key tax issues to watch out for in a local church.

**and Get Ready for an Audit**

The focus of this book is to help pregnancy resource centers improve their internal operations. It also provides background on what is involved in the audit process.

**Once Upon Internal Control -- A tale of good and bad ways to implement internal controls in a local church,**

A short fable illustrates how things can go wrong if internal controls are not in place and how internal controls can protect your staff. The book describes some basic internal controls a local church should have in place.

While it is written in the context of a local church, the concepts described apply directly to all non-profit organizations.
