## Peer Review

U

Provider of peer reviews under the AICPA Peer Review Program

In 2010, I completed the training necessary to become a peer reviewer. This means I can perform peer reviews for other CPA firms in the AICPA Peer Review Program . As mentioned on the *Firm Background* page, this is a program designed to help accounting firms maintain the quality of their audit and accounting work.

For more discussion of the peer review program and quality control issues, see my blog [Attestation Update](#) and in particular the category of [peer review](#).
